

October is Breast Cancer Awareness Month

- *A woman has a 1 in 8 chance of having invasive breast cancer some time during her life.*

The American Cancer Society recommends that after a woman reaches age 40, she should have an annual mammogram.

Powell Valley Healthcare

777 Avenue H, Powell • 307-754-2267 • www.pvhc.org

October is Breast Cancer Awareness Month

- *There are local programs available to help cover the cost of your mammogram. Please contact our Imaging Department for more information.*

Please don't let financial reasons prevent you from getting this important screening!

October is Breast Cancer Awareness Month

- *You can self-refer with us for your mammogram.
You don't have to have a physician order.*

*Dr. Jenkins Clarkson, OB/GYN, is the sponsoring
physician for this program*

October is Breast Cancer Awareness Month

During the month of October, PVHC is recognizing the impact that breast cancer is having on women and their families in our community, as well as those all around the world.

Please join us in showing support and wear PINK every Friday.
